FOR AUTO ACCIDENTA damage suit for \$5,000 has been  
filed in the court of common pleas by  
Ida May Roney against William Peck.  
The suit was filed on the evening of  
December 31, 1918, at about 5 o'clock  
when Ida Roney was riding in an auto-  
mobile on the National Pike about  
six miles east of Columbus and just as  
she had turned to avoid striking a  
fruit wagon, a machine owned and  
driven by Peck crashed into them.The petition states that the Roney  
car was equipped with lights but that  
the Peck machine was not. She states  
that as a result of the collision she  
suffered a dislocated left hand, severe  
bruises on back and hip, a cut on the  
right side of the head and a severe in-  
jury to the shin bone of the right leg,  
and that for five months thereafter she  
was incapacitated from doing any kind  
of work and is still hardly able to move  
around.HOLD TWO FOR BIG  
EXPRESS ROBBERIESSteubenville, Feb. 11.—Losses aggre-  
gating \$40,000 through stolen shipments  
in the Steubenville district the past  
three years led the American Railway  
Express company to make investigation  
of the express companies in the district.  
C. Smith, 21, bill clerk and driver for  
the express company and Charles W.  
Taylor, 32, well known butcher, the  
former is charged with larceny and the  
latter with receiving stolen goods. Both  
are held under \$2,500 bond. Smith is  
charged by company officials with col-  
lecting the loot from stolen shipments.  
Taylor is charged with receiving the  
goods and disposing of merchandise.  
Taylor is alleged to have admitted this  
charge and confessed to \$2,456.66 and  
\$400 in war savings stamps found in a  
raid on his home, represented his share  
of the proceeds. Smith has made no  
admissions as yet. George F. Hunter,  
chief special agent of the American  
Railway Express company arrived last

2 BILLIONS YEAR  
FOR STRONG DRINKMember of House of Com-  
mons Tells of Economic  
Waste Resulting From  
Growth of Drink Habit.London, Feb. 11.—The drink question  
was briefly discussed in both houses of  
parliament yesterday. Earl Curzon told  
the lords that the bill on this subject to  
introduced would contain provisions for  
shorter hours of sale.The experiment of state management  
certainly would not be dropped, he  
said.In the house of commons, the subject  
was alluded to by Sir Donald Maclean.  
"The fact that America has gone dry is  
an economic fact of the gravest im-  
portance to Great Britain," he said.He declared the British expenditure  
for drink absolutely staggering. The  
country spent more than \$44,000,000  
pounds for drink in 1914, he said, and  
this expenditure increased steadily un-  
til it was \$59,000,000 pounds in 1918,  
while it was estimated that the expendi-  
ture for the year ending March 31  
next would be nearly 400,000,000 pounds.  
He was unaware what the duty on the  
consumption for the last named period  
would produce for the public revenue,  
but the duty of 1918 was 48,500,000  
pounds. It was a form of revenue that  
the chancellor of the exchequer would  
be pleased to be able to dispense with,  
he said. He hoped the measures pro-  
posed by the government would prove to  
be a serious attempt to grapple with  
the liquor question.The liquor question will be debated in  
the house of commons during the pres-  
ent week when, according to a lobby  
report, Lady Astor will speak on the  
topic.SUES TO RESTRAIN  
SHUTTING OFF GASAdvance Glass Company  
Says Consumers Gas  
Company Boosts Price  
Above Rate in Contract.The Advance Glass company, through  
its attorneys, Pittsburgh, Pa., and  
Black, has asked a permanent in-  
junction against the Newark Consumers  
Gas company, restraining the de-  
fendant from shutting off natural gas  
supplied the defendant, and Judge T.  
H. Smith today granted a temporary  
injunction until the case can be heard  
on its merits. The petition filed in the  
office of County Clerk Leo T. Davis by  
Fred Woltjen, president of the Advance  
company, states that the defendant en-  
tered into a contract in writing with the  
gas company on October 25, 1919, by  
which the Newark company agreed to  
furnish the glass company natural gas  
sufficient to operate the plant, which  
manufactures cathedral glass, to be  
operative from Nov. 1, 1919 to Nov. 1,  
1920, on a pressure basis of 8 ounces, at  
an agreed price of 42 cents per thou-  
sand and cubic feet. The petition alleges  
that the gas company now threatens to  
shut off the gas unless the glass factory  
pays it 53 cents per thousand feet.HOLD TWO FOR BIG

MAY LEAVE LEXINGTON TODAYNational Guard Company Is  
Demobilized—Threats  
Are Made.Lexington, Ky., Feb. 11.—Although  
William Lockett, convicted murderer of  
10 year old Geneva Hardman was  
late today in Eddyville prison where  
he is to pay the death penalty for his  
crime on March 11, 500 troops were  
held today in Lexington which remains  
nominally under martial law.Military officers spirited Lockett out  
of town on a special train late last  
night. Four hundred of the special  
troops ordered here Monday to sup-  
press mob rioting in which five per-  
sons were killed and many wounded in  
an unsuccessful attempt to lynch Lock-  
ett, accompanied the train.The mob that there appears  
to be no further need for presence of  
soldiers here it was believed the orders  
invoking martial law would be issued  
today and the remaining federal troops  
returned to Camp Taylor.All martial law restrictions are off.  
The martial law still holds, however.  
The police have resumed their duties.TROOPS ESCORT NEGRO  
TO DEATH CHAMBEREddyville, Ky., Feb. 11.—William  
Lockett, under a heavy guard of fed-  
eral soldiers was removed this morning  
from the special train which bore him  
from Lexington and was taken to the  
state penitentiary where a special  
death watch was placed over his cell.  
The train arrived at 8 o'clock and  
an hour later the troops were on their  
way back to Camp Taylor.The trip from Lexington and from the  
station here to the prison was made  
without incident.  
The same elaborate precautions to  
protect Lockett, which have been in  
evidence ever since the military authori-  
ties assumed responsibility for him  
were taken when the train arrived in  
Eddyville. Squads of men with fixed  
bayonets were deployed at intervals  
from the railroad station to the prison.  
Lockett, in the center of a squad of  
30 soldiers, was taken from the train  
and marched half a mile to the prison,  
where an exciting chapter in Kentucky  
history finally will be closed with  
Lockett's electrocution here on March 11.GOVERNOR PRAISES  
NAT. GUARD TROOPSCovington, Ky., Feb. 11.—Members  
of Company D, Kentucky guards, of  
Latonia, who quelled the mob in Lex-  
ington, Kentucky, were back in their  
shops and offices today, having returned  
from Lexington via Frankfort last  
night. Because of rumors that friends  
of those killed in the rioting Monday  
had threatened revenge upon Company  
D, Captain Crockett disbanded the men  
and they were taken to their homes.  
Lockett, in the center of a squad of  
30 soldiers, was taken from the train  
and marched half a mile to the prison,  
where an exciting chapter in Kentucky  
history finally will be closed with  
Lockett's electrocution here on March 11.ANOTHER KENTUCKY  
NEGRO IS SOUGHTDayton, O., Feb. 11.—Police officers  
from Flemingsburg, Kentucky, were  
here and at Cincinnati today searching  
for Grant Smith, 45, negro, wanted in  
connection with an attack upon Ruby  
Anderson, 15, a farmer's daughter of  
Johnson, Johnson, Kentucky. The offi-  
cers failed to find any trace of the  
negro at Columbus yesterday. Reports  
from Flemingsburg say that the people  
there are aroused over the attack.HEAVY SELLING BRINGS  
STOCK PRICES DOWNNew York, Feb. 11.—Stocks dropped  
two to eight points in the local market  
today as a result of further heavy  
liquidation. Brokers and commission  
houses reported heavy selling from in-  
terior sources. Heavy enforced selling  
on account of traders who were unable  
to meet demands on impaired margins  
also was noted.Opening prices were only moderately  
lower but the reaction became general  
before the end of the first hour. De-  
valuations which usually govern the  
price of stocks was money rates and  
foreign exchange apparently ceased to  
have any direct influence although  
prices reflected somewhat before noon  
when call opened at 5 per cent.

Youngstown, Feb. 11.—Gaspang "my

the arms of a passerby a few minutes  
after he was shot by an unknown as-

## FIRST PICTURES OF LEXINGTON RIOT.

State troops holding back mob storming courthouse and close-up of one of the machine guns and its crew on steps of courthouse.

Martial law prevails in Lexington, Ky., following the attempted storming of the Fayette county courthouse, which resulted in the killing of five rioters and the wounding of many others by state troops. The mob, 4,000 strong, demanded officials turn over to them William Lockett, negro then on trial for the brutal murder of Geneva Hardman, ten-year-old white girl. Anticipating trouble, the sheriff had asked for and obtained state troops. These soldiers, armed with rifles and machine guns, guarded the courthouse. When the mob arrived the sheriff tried to persuade them to leave. They refused and at the first menacing move the order was given to fire. A few minutes after the mob had been dispersed Lockett was found guilty by a jury and sentenced to be electrocuted March 11. The above photos were rushed from the scene of the riot.

TURKS START INVESTIGATION  
OF MURDER OF FRANK L. JOHNSONOfficer Is Sent to Scene of Crime and Is Accompanied by  
American Civil Commissioner—Mr. and Mrs. Johnson  
Were Robbed of Cash in Turk Capital.Investigation of the reported murder of James Perry and Frank  
L. Johnson, representatives of the American Y. M. C. A. by Turkish  
brigands near Aintab, Syria, has been begun by the Turkish govern-  
ment according to an Associated Press cablegram from Constanti-  
nople to the Advocate. The cablegram was filed Monday but was de-  
layed in transit.An officer has been sent to the district where the outrage is said  
to have taken place, the cablegram says, being accompanied by an  
American civil commissioner.That the entire Turkish nation is in-  
fested with thieves and bandits is in-  
dicated by a letter written by Mrs. John-  
son to Mrs. A. S. Mitchell of the city,  
telling of being robbed in Constantinople  
as they were about to leave for the  
southern part of the country.According to the letter, one of their  
bags was stolen which contained \$1,200  
in Y. M. C. A. funds, advanced to Mr.  
and Mrs. Johnson for their expenses on  
the trip which cost Mr. Johnson his  
life. Besides this, there was \$600 of  
their own personal money. At the time  
the letter was written the money had  
not been recovered though the secreta-  
ry assigned to the case claimed to  
have found a clue.The letter was written Jan. 12 at  
Konia, Asia Minor. Mrs. Johnson wrote  
interestingly of her experiences in the  
Turkish capital and of the crude ac-  
commodations provided for travelers on  
trains in Turkey. That portion of the  
letter telling of the robbery follows:"I must tell you about our great  
misfortune just as we were leaving  
the city. We had taken from us, some-  
where, or other, our bag containing \$1,200  
of Y. M. C. A. money, advanced to us  
for our expense account in the interior  
and on to India, and \$600 of our  
own personal money. It was evidently  
taken from our room. The bag also  
contained our passports."A detective has been put on the  
trail and before we left he had unearthed  
one clue which sounded very  
plausible. Of course we do not know  
that anything will come of it, nor do  
we know whether or not we will have  
to stand all the loss. It is in the hands  
of a committee who will report to New  
York. We believe that they will be per-  
fectly fair about it.""There are many extenuating cir-  
cumstances in our favor—but just the  
same Frank and I thought that we  
never would recover our equilibrium  
again. It just seemed to take the heart  
out of us for a while. However, the  
worst of the shock is over now and I am  
sure that it will come out alright  
some way or other.""Money is not safe in this part of the  
world nor are any worldly possessions.  
I am not at all sure that we will be  
able to get all of our baggage through.  
I am almost expecting to lose a trunk  
or two. One of the Robert College men  
and a man who gives part time to the  
Y, had \$850 taken from his pocket the  
other day and so far that has been a  
total loss.""Many of our workers have lost  
money in that way but of course the  
loss has not been so great as ours in  
any case. It is not because people are  
careless either but rather that the  
pickpockets and thieves over here can't  
be surpassed anywhere in their clever-  
ness."DETECTIVES FOIL PLAN  
TO SMUGGLE BOOZEToledo, Feb. 11.—In a revolver battle  
with drivers of a motor truck, city de-  
tectives here last night thwarted an  
attempt to smuggle a \$20,000 liquor  
cargo into the city. The liquor, sent  
from Windsor, Ontario, was came  
floated as a furniture shipment. Be-  
cause the shipment was designed to a  
soft drink purveyor customs officials were  
suspicious and ordered the car watched.  
During the night several men in a  
truck approached the car. When they  
broke the car in an exchange of shots the smugglers  
escaped, as a long the truck. The de-  
tectives found that the liquor was con-  
cealed in the car under second hand  
chairs.GOLF BALLS IN DEMAND.  
Chicago, Feb. 11.—An unprecedented  
demand for golf balls indicates there  
will be a rapid break play this year  
according to manufacturers here, who  
reported today that all factories are  
operating at full capacity and a number  
are working two and three shifts for  
the first time in their history. Contracts  
this year specify balls must be delivered  
by June 1, although heretofore the firms  
have contracted with professionals for  
the year's supply, making deliveries  
throughout the season.VOTE IS DECISIVE.  
Copenhagen, Feb. 11.—Latest reports  
as to the result of the plebiscite held  
yesterday in Schleswig show that Den-

723 for Germany. Only a few districts  
have not been heard from.BOXING BOARD TO

1400 PERSONS PERISHLondon, Feb. 11.—A wireless dispatch  
from the Soviet government at Moscow  
today says:"According to a message from Novo  
Rozhisk, when the volunteer transport  
Karamin with officers and officials and  
their wives and children aboard, num-  
bering 1400 left Mariupol (in the Russian  
province of Yekaterinoslav) on the ap-  
proach of the Polishviki, the volunteer  
army, increased at being left behind  
fired on the ship. A shell pierced a  
boiler and the transport sank with all  
aboard."

wage demands of the 2,000,000 railroad  
workers on his own responsibility and  
from the standpoint of the railroad ad-  
ministration and will then report to  
the President, it was said today at the  
White House. Mr. Wilson, then will  
approve or disapprove the decision.Heretofore the President generally  
has passed upon wage decision before  
the railroad administration answer was  
given to the union representatives. No  
reason was assigned for the departure  
from the usual custom in this case.In the light of the urgent demands of  
the trainmen and the strike call issued  
by officers of the Brotherhood of Main-  
tenance of Way Employees, the rail-  
road administration and White House  
officials regard the situation as ex-  
tremely grave. Mr. Hines has held a  
long conference with Secretary Tumul-  
ty who has submitted memorandums  
on the subject to the President. Mr.  
Wilson still has this memorandum be-  
fore him.Conferences between Mr. Hines and  
the brotherhood officers were to have  
been resumed this morning but at the  
appointed hour neither side was ready  
to go ahead and the meeting was pos-

satisfaction of the union, according to  
J. C. Seungis, secretary of the Spring-  
field local, in a statement issued late  
Tuesday. He said the vote on the Big  
Four lines had been taken more than  
a week ago, collected at Indianapolis,

Status of New and Old  
Board.The work of the new health commis-  
sioner and board of health is being  
handicapped owing to the litigation of  
the former health board and the new  
board. The controversy over the resigna-  
tion of the former board, and charges of  
failure to pay back salaries, have re-  
sulted in a delay in the turning over of  
the health department records to the  
new board.It is probable some formal action may  
be instituted to secure the records.NEW YORK EDITOR IS

the crown of Italy. Mr. Johnson was  
born in Washington, D. C., 1862, and  
was editor of the Century magazine

memoirs and set on foot the movement  
which resulted in the creation of the  
Toscanetti National Park.

Thursday B. & O. vs. American Bottle. The opening battle last night, in the industrial league showed promise of a great scrap but the stove men did not play up to form and were the losers of a game they should have easily have copped. The score at the end of the first half stood 13 to 12 in favor of Heisey. After 12 minutes of play in the second period McClosky was removed from the game on fouls and the Heisey squad continued to operate with four men. The Wheile team with five men still in the game had the most opportunity to register but frequent spills and injuries cost the boys then pep and the Heisey team romped away with the long end of the score 21 to 17.

The scoring machine the Printers set up came as a complete surprise and from the start showed that they were going to make a clean sweep against the league tail enders. The Holophane squad played gamely thru the contest but were victims of the jinx that hung around the basket preventing many well directed shots from tallying. The glass men were feeling pretty blue after the game and hinted that it may be their last game. While they have been a losing squad they have won the comment from the league fans for their stick-to-it-iveness. Final score. Printers 31, Holophane 11.

## SNOW DRIFTS HALT TANK, BUT GIRLS DIG THEIR WAY OUT

Fair Barnard College girls shoveling snow and baby tank being given running space after New York snow storm

New York city has had one of the severest winters, as far as snow and storms are concerned, in its history. The most recent blizzard and snow left street car and auto traffic temporarily paralyzed. Workers in many cases had to shovel their ways from their houses to the more heavily traversed streets. A baby tank, built for storming German trenches, was called into play to free snowbound auto trucks and buses, but even this powerful engine failed to go

over the top of some of the drifts. Members of the tank crew had to aid it now and then to get a good start. Barnard College girls made sport of the work of opening up walks about the college campus, turning out in relays to shovel snow.

## STUDENT NURSE TAKES SLOW POISON; WILL DIE

Cleveland, Feb. 11.—Metanecolia, due to the death of her father prompted 19-year-old Mildred V. Ames, of Ada, a student nurse to attempt suicide this morning, according to police, by taking poison in her room at a hotel. Early this morning she called the hotel clerk by telephone, saying she had taken poison and asked for a doctor. She was unconscious when the physician arrived but recovered consciousness long enough to say that she had taken 12 poison tablets. The poison is such that she may linger for days or weeks before death finally comes, hospital physicians said, holding out no hope for her recovery.

**Dwarfs in History.**  
Dwarfs, until very recent days, have been highly regarded and much sought after. In far-away days kings have fought over dwarfs, and a court that possessed one was considered very fortunate and altogether stylish. Wealthy folk, even, competed with monarchs in the purchase of dwarfs as a sort of hall-mark of aristocracy. A race of tiny people in Equatorial Africa, the Akkas, were much prized by the early Pharaohs. The Romans tried to supply the demand by artificial dwarfing, and had separate words to distinguish the natural from the unnatural dwarf.

**Tax of Idleness.**  
It would be thought a hard government that should tax its people one-tenth part of their time, to be employed in its service. But idleness, taxes many of us much more, if we reckon all that is spent in absolute sloth, or in doing nothing; with that which is spent in the employment of amusements that amount to nothing. Sloth, like rust, consumes faster than labor wears; while the used key is always bright, as Poor Richard says.—Franklin.

**More Than Skin Deep.**  
Beauty is more than skin deep, according to the United States public health service. Natural beauty is usually a sign of health that comes from keeping the body clean and getting plenty of outdoor exercise.

## Important to all Women Readers of this Paper.

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.

## TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicine but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me."  
—Mrs. LETTIE BANEY, 468 East 9th St., Rochester, Indiana.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, trembling, irritability, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Baney.

**GRAND.**  
"When the Clouds Roll By" a won-

derfully high class Big Four picture,  
the second in which Douglass Fair-

afternoon crowds were large enough to  
comfortably fill the theater.

"Some folks get a great deal of ex-  
citement from picking up a poker hand  
to see what they have drawn, but for  
me, the real pleasure in life is in  
trying out new climbing and jumping  
stunts just to see what will happen to  
me." This is how Douglas Fairbanks  
says he feels when he was questioned  
about some of the reckless stunts he  
does in "When the Clouds Roll By."

In addition there is being shown a

Sunshine comedy that has a real punch  
to it, in which Chester Conklin is seen

given the comic opera, the newspaper  
commented it with particular emphasis.  
The cast includes five that were in the  
original New York cast at the time it  
finished its two year run at the Casino  
in New York. George O'Donnell, the  
"Col. Popoff" is undoubtedly the most  
satisfying comedian that ever essayed  
that part, which he has played more  
than two thousand times.

The leading lady, Helena Morrell, the  
"Madame" of the cast is the possessor  
of a voice of exceptional beauty, power  
and flexibility and in interpreting the  
difficult music which Oscar Straus has  
assigned to the part, she is at her best.  
Mail orders are now being received.  
Seats go on sale Friday.

**The Bird of Paradise.**  
Local playgoers will find much more  
than passing interest in Richard Wal-  
ton Tully's charming play, "The Bird  
of Paradise," which returns for its an-  
nual engagement at the Auditorium  
next Tuesday evening.

The play stands out as a distinct con-  
tribution to American dramatic litera-  
ture. It touches a virgin field, so far  
as the stage world is concerned, and it

not a newcomer in the realm of photo-  
plays. Her career has been wide and  
varied, having played with some of the  
best known stars in the films. Miss  
Wilson was born in Birmingham, Ala-  
bama, and entered the well known Uni-

ago, and was chosen as the Alabama  
representative in that contest.

**GRAND.**  
"When the Clouds Roll By" a won-

## A FINANCIAL TRIUMPH.

Up to the year 1913 the country suffered from a series of disastrous panics and industrial depressions. They came with almost perfect regularity. They brought immeasurable suffering and disaster. Yet no one did a thing to remedy them. It was like the man who never mended his roof, because when it rained he could not get out in the wet; and when it didn't rain, then the roof was all right.

That state of things continued while the Republican party held power most of the time from 1860 to 1913. With the advent of the Democratic party, a new force came into being, responsive to the demands of the people and determined to get things done. It went to work at once to reconstruct the banking system, the inelastic character of which was the chief cause of panics.

The credit basis of business was so enlarged that sound and solvent concerns could get the accommodation they needed in times of industrial strain. Immediately business conditions began improve. The system was speedily put to the most severe test that could be imagined, that of the greatest war in history. Imagine the disaster that would have crushed the country had the old banking arrangements been the only reliance.

The Federal Reserve bank system took the terrible load easily. The financial fabrics underwent a strain never before experienced in the history of the world. The war was financed, a debt of \$30,000,000,000 handled, and the difficulties of the return to a peace time basis have been successfully met. The Republican system of finance broke down under the loads of ordinary peace times. The Democratic system of finance stood the worst strain of history.

In view of this record, which party would you rather have manage the finances of the country?

## IS THERE A SCARCITY?

It has generally been considered and reported for a year that there is a great scarcity of all kinds of goods. The Federal Reserve bank of Boston recently made an inquiry through New England, and found that the merchants generally are carrying large stocks. As the supplies in that section would not probably exceed those in any other, this investigation raises the question how far this reported scarcity is an actual one. It is the best to have the exact truth known. Reports of a scarcity that does not exist tend to increase prices, and lead the public to buy in a feverish way.

There is a scarcity of steel and iron, due in part to the strike, also of paper, and building materials. Factory products may be getting up to a normal supply. If so, a lot of the people who have been spending money in foolish extravagance are going to feel a disagreeable pinch before long.

## THE BUDGET IDEA.

The old way of spending public money was for all public servants to reach for the crib and grab what they could. The new way is for some superior authority to look over all the needs, and decide how much the people can afford to spend, and then divide up the total pro rata, according to the various requirements. The last named plan is called the Budget plan, and is the only method worth considering in these times.

In Illinois, the budget plan went into effect in 1917. That year the tax rate was 90 cents. In 1919 they had cut it down to 60 cents, in the face of a period of raising prices.

Why the national government, the

states, the counties and municipalities, have not long before this adopted a good budget plan, is a mystery which the Advocate does not attempt to explain.

An ounce of courage is worth a ton of fear.

## GOOD CITIZENSHIP.

The good citizens sometimes become discouraged by the low standards of public life and political work. Yet on the whole these standards do tend to advance.

The tendency in Ohio and almost everywhere else, to conduct political campaigns by newspaper advertising, has been a wholesome one. When a candidate puts his money into a direct, frank, public appeal to the people, he isn't going to put it into secret work by wire pullers. A campaign by newspaper publicity is or can be made educational. It gives a chance to impress direct and effective arguments on the public mind, to give them facts in cold type, which they can read and digest at their pleasure.

Campaigning by newspaper advertising promotes truth telling. A political worker will go around on the sly, appealing to people's self interest, their lowest motives and meanest prejudices. But when he depends upon newspaper publicity, he has got to show up arguments that sound reasonable to all the people. He has got to ask support on the ground of public interest. That lifts politics to a higher level.

Some people claim that campaigning by newspaper publicity costs too much, and places too much of a burden on candidates. Anytime that the people feel this to be true, they can limit the amount a candidate can spend. The amounts he spends for newspaper space, are not like those given to political workers. The expenditures for newspaper publicity can always be verified.

The time has gone by when political campaigns can be won by gum shoe work, or by merely gaining the support of the heelers who control the purchasable or the ignorant vote. Frank, open campaigns of publicity, direct appeals to reason and common sense, are the winners in the political field today.

Did You Know

That Thomas Edison was born in

Milan, Ohio, February 11, 1847? His father taught him to read and write and beyond that he never had more than two months schooling. However, he read with avidity and judgment, his father paying him a small sum of money for every book he read thoroughly. Before he was twelve years old he became a train boy and afterwards became an expert telegrapher. The first invention for which he received a patent was a stock indicator and the proceeds from this enabled him to buy a laboratory. His next patent was a chemical apparatus by which 500 words could be transmitted in a minute. Today is Mr. Edison's 73rd birthday and "73" is the telegrapher's code for "all good wishes." Hundreds of telegraphers have worn buttons today reading "Edison-73."

## LXIX.—The Jade Pendant.

When the maid came to inform Keitha that the motor was waiting, she involuntarily uttered a little exclamation of appreciation.

Mrs. Bennett junior was radiant in the new gown, which bore the imprint of Paris in line and cut and the filmy lace that revealed more of her white arms and shoulders than it concealed. "It is beautiful, madame," said Dora simply, "and becomes you as though it was made for you."

Keitha looked at her reflection doubtfully. "It's very extreme. I wonder if I look as shocking as feel?" "Miss Anita's gown is much lower," Dora consoled her, "But not so beautiful."

She turned away to pick up Keitha's wrap lying on a chair, and gave a little exclamation of surprise. "You didn't open your registered package that I laid on your table this afternoon?"

"What package?" asked Keitha, trying to coax the black lace corsage higher over curve of her breast. "Dora held up a small square parcel officially sealed and stamped."

"You weren't in when it arrived so I laid it here on the table. I'm sorry I forgot to tell you." Keitha accepted the little package curiously, turned it over and gave a start of surprise.

It bore the printed stamp of the jewelry shop in San Francisco where she and Tom Moore had selected the jade necklace for his sister.

With thorough alarm, Keitha tore open the parcel, forgetful of Dora's curious eyes.

Lifting the lid of a grey velvet box, she found a bit of exquisitely carved jade—not the necklace, but pendant of palest green veined with a darker hue and carved in the perfect sem-

blance of a lotus flower. It was attached to a slender platinum chain.

Fascinated by the beauty of it, Keitha clasped it against her throat. As the necklace had done in the shop, the jade lotus flower seemed impregnated with life against her white flesh. Its green depths quivered with a mysterious light which caught and blended with the copper sheen of her hair. It was the final completing and contrasting touch to the black gown.

Looking up from her rapt contemplation of the jewel, Keitha encountered Dora's admiringly curious eyes. "For the second time that evening she felt the necessity for a quick fib."

"I ordered this in San Francisco. They have not been very prompt in sending it."

"But it has come in time to wear tonight."

"Oh," Keitha flushed vividly. "I shall not wear it tonight." It should go back to Tom Moore immediately, she vowed. How stupid of him to send it; he might have known she would never accept it. She was thankful there was no card enclosed.

"But, madame, protested Dora reproachfully, "It is just the touch you need to give the gown life. Take it away and you will see the difference."

Obediently, Keitha slipped the pendant from her throat.

The gown which she had thought wonderful before the advent of the jade seemed suddenly dead. She returned the pendant to her throat. Dora was right. She would wear it this one evening and return it in the morning. So women have decided since Eve.

Tomorrow—The Effect of a Gown.

# They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—road-bed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

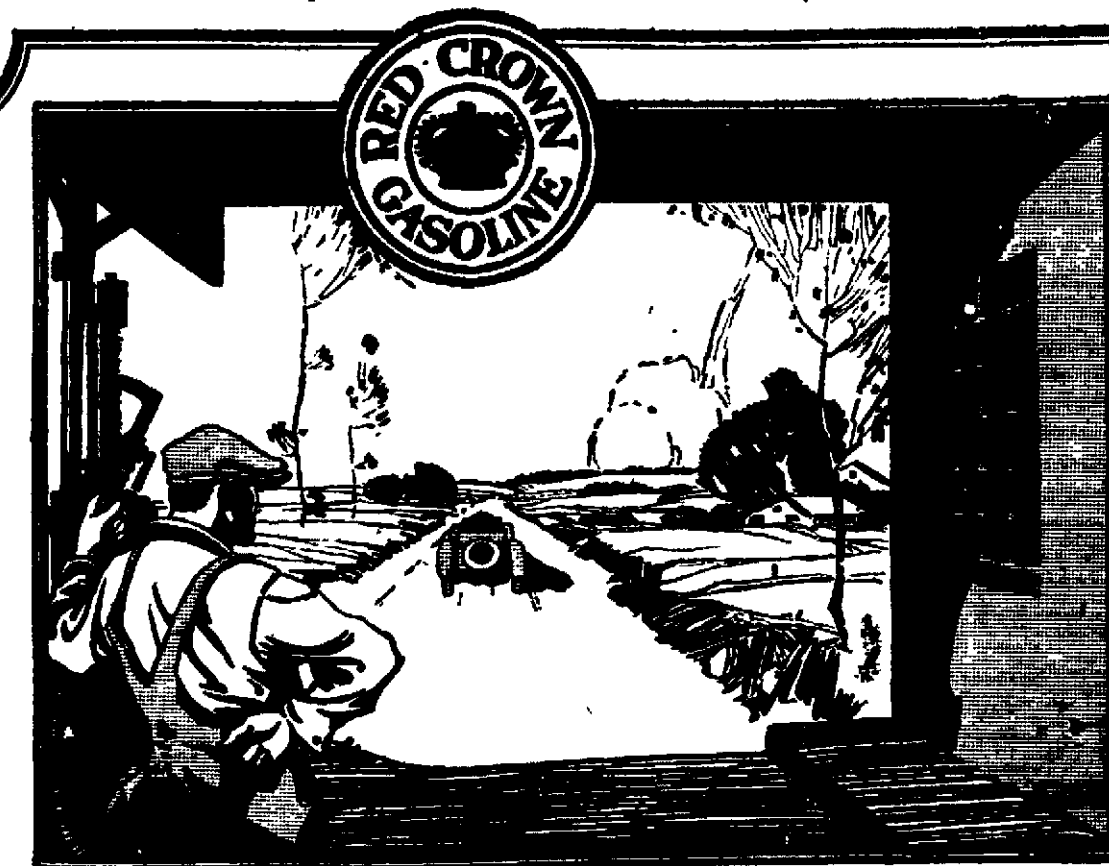

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American railroads to pay the highest wages while charging the lowest rates.

## TRIBUTE PAID TO FRANK JOHNSON

Rotarians Hear Eulogy  
Given by Personal Friend  
At Meeting of Club Held  
Tuesday.

Newark Rotarians sat silent on Tuesday noon while the club, through C. Harrington Davis, paid tribute to Rotarian Frank L. Johnson, member of whose death at the hands of Turkish brigands has just been received in this country.

Rotarian Davis was a member of the committee which first brought Secretary Johnson to Newark to take charge of the Y. M. C. A. He told of the splendid character and optimism of the man and how he lived up to the Rotary principle, "Service Above Self."

At this meeting plans for the celebration of "All-Rotary week," February 14-21, were discussed and a committee appointed to arrange for the evening meeting of February 24. "All-Rotary Week" is the means adopted by the 600 clubs over the country to celebrate the twenty-fifth anniversary of the organization of Rotary.

## SMITH LUMBER YARDS PLAN FOR BIG BUSINESS

The P. Smith Sons Lumber company has increased its stock from \$50,000 to \$150,000. William H. Smith, president, stated today that the company had simply outgrown its capital and was looking for increased business and was looking for increased business and was looking for increased business.

This company is one of the oldest lumber yards in central Ohio, having been started in 1850 by Patrick Smith. It was located on the southwest corner of Fourth and Canal streets. The yard was afterward moved to the present site of the county jail and about 20 years ago was moved to its present location. Early move was an advance toward expansion until today the yard is considered one of the most complete in the state.

The yard has three subdivisions, one at each end of the Columbus yard, the South Side Lumber company and the new Steelton Lumber yard. The yard is managed by Archie C. Davis of Newark, who has also increased his capital stock to \$100,000 while the Lake Lumber company at Hebron has increased from \$20,000 to \$50,000.

These increases make a total paid capitalization of \$400,000 giving all their yards ample capital to take care of their rapid growth.

## 245 MEN AND BOYS AT DINNER

Boy Scouts and Dads at  
Banquet as Part of Anniversary  
Week Program—  
Good Talks Are Heard.

The Boy Scout Father and Son banquet, which was a part of the celebration of the Newark council, Boy Scouts of America, during the anniversary week, was held Tuesday night at the First Presbyterian church. A splendid dinner was served to 245 men and boys by the ladies of the church. During the meal excellent music was furnished by the Boy Scouts orchestra of 18 pieces under direction of F. W. Myers, Jr., assistant scoutmaster of Troop 6. This orchestra was organized and trained by Myers.

The meeting was presided over by M. Black, vice president of the Newark council.

The first speaker introduced was Scoutmaster Kellenberger of Troop 6, who spoke on the subject, "What We Expect of Dad."

Scout Kellenberger took as the basis of his talk, the scout law, which he pointed out that Dad would live the scout law, he would be everything that a boy might expect.

E. F. McDonald spoke on "What We Expect of Dad." He pointed out that Dad expects a great deal of his boy. A large part of which may be taken from the scout law, and various scout activities.

Illness in his family it was impossible for Scout Executive, R. M. Schuller, of Zanesville to be present and his address was not given.

A. C. Barclay, deputy national field scout commissioner, in charge of the Boy Scout field work in Ohio, gave a talk on general scouting, stating that it is the boys of today who will work out the problems now confronting this country, and the responsibility of this country will soon rest upon their shoulders.

Prof. C. L. Williams of Denison university, and Rev. Emanuel Breeze of Granville, both gave short talks. There were 44 men and boys present from Granville.

Major Clark commander of the R. O. T. C. of Denison university asked the boys to do him a "good turn" and advise him of the names of any men they thought might consider enlisting in the United States army.

The meeting closed by repeating the scout oath.

a young physician practicing in Pennsylvania and became famous for his uniform success in the curing of dandruff. This was Dr. R. V. Pierce, who afterwards established himself in Buffalo, N. Y., and placed one of his prescriptions, which he called his "Golden Medical Discovery," in the drug stores of the United States so that the public could easily obtain this very remarkable tonic, corrective, and blood-maker. Dr. Pierce manufactured this "Discovery" from roots and barks, a corrective remedy, the ingredients of which nature had put in the fields and forests, for keeping us healthy. Few folks or families now living have not at sometime or other used this Golden Medical Discovery for the stomach, liver and heart. Evidence of the wonderful of this medicine is recorded in the books of Dr. Pierce's Laboratory in Buffalo, N. Y., showing that over twenty-four million bottles of this tonic and blood remedy have been sold in this country. No one can fight the battles of life and hold his own if his blood is not pure. No one suffers from colds, "flu" and catarrhs who have plenty of red blood corpuscles and a good digestion. Catarrh is a stagnation of the blood. Introduce pure red blood into the system, and health is assured.

Dr. Pierce advises you, if you wish to avoid the many germ diseases, to keep your blood in good order. You can obtain Golden Medical Discovery in tablet or liquid form at all drug stores, or send 10c for a trial package to Dr. Pierce's Laboratory in Buffalo, N. Y.

## Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

## CHURCH ACTIVITIES LODGES AND CLUBS GRANVILLE SOCIETY

### REV. BOWDEN IS POTENT FACTOR IN COMMUNITY

Is Greatly Interested In  
Young People's Work  
and Efforts For Public  
Welfare.

Rev. Robert G. Bowden, pastor of the  
Granville Methodist Episcopal church,  
while a resident of the village only  
since October 1st, has become in this  
brief time, one of the potent factors in

REV. R. G. BOWDEN

the religious and social life of the com-  
munity.

While interested in all that concerns  
the community life, and willing to help  
in every undertaking for the public  
welfare, Mr. Bowden is officially bound  
only to the duties of his pastorate.

Born and reared in Zanesville he re-  
ceived his early education in the high  
school of that city and took his college  
course at Ohio University, his theologi-  
cal work being done under the Ohio  
Conference Training school. Since his  
graduation, he has held pastorates at  
Brownsville, and Croton in Licking  
county and at Jacksonville and Central  
Avenue church, Athens. He was asso-  
ciate pastor with Dr. L. C. Sparks at  
Newark, 1914 and 1915.

Mr. Bowden has been particularly in-  
terested in Young People's work, and  
was president of the Marietta District  
Epworth league—and has had five com-  
missions as Scout-Master. Prepared for  
general experience first in city church  
work, he has transferred his attention  
for the time to the study of country  
village church problems. He is plan-  
ning a series of revival sermons to be  
delivered just before Easter, and his  
ministry, already has been marked by  
the reception into the membership of  
his church of over a score of people,  
old and young. Mr. Bowden, who still  
is a young man is imbued with the  
sacredness of his calling and the oppor-  
tunity for service offered in these days  
to the minister of the gospel.

### TRAVELERS' CLUB MET ON MONDAY

At the meeting of the Travelers Mon-  
day afternoon, the vice president, Mrs.  
E. E. Hopkins, presided in the absence  
of Mrs. A. K. Herrick. Mrs. Clemons  
read a recent account of the present  
status of ex-King Nicholas of Monte-  
negro, who is described as utterly with-  
out financial backing from any source,  
living in a poor way in Paris.

On the regular program was a paper  
on "Down the Danube," prepared and  
read by Mrs. August Odebrecht. The  
trip down the historic stream brought  
out the topographical features of the  
countries through which it flows.  
Next to the largest river in Europe, it  
is 1750 miles in length, variously  
spelled; by the Germans, Danau; by  
the Hungarians, Dunaj; by the Rumanians,  
Dunari; by the Serbians, Bulgarians  
and Russians, Duna; by the English-  
speaking people, Danube.

Miss Ellen Davies gave a compre-  
hensive view of "Russian Influences in  
the Balkans," which took one back to the  
times of Peter the Great, and his suc-  
cessors on the throne in Russia.  
As the topic of current interest, Dr.  
C. H. Graves, who has returned to  
Granville from 18 months' service as  
war worker in many countries, gave an  
eloquent talk on the work of that great  
organization among the soldiers. He  
spoke of the threefold nature of the  
work: the spiritual, the mental,  
the physical, all of which had been  
provided from the fund of \$100,000,000  
subscribed by the people of the United  
States. He supplied the exact figures  
of all that had been done for the boys  
free of expense. He said that the can-  
teen had not been included in the list  
of the Y activities until General Per-  
shing requested that it take over that  
work in order to release several thou-  
sand men for the fighting line. The sup-  
plies had been purchased by the Y from  
the quartermaster of the United States  
army, and no more had been charged

000,000 had actually been expended by

'32, son of the founder of Shepardson  
college, and himself an eminent edu-

O. Lowden. Dr. Shepardson, who is re-  
called as the principal speaker on  
Granville Day of Centennial week in  
1905, on the program with Governor  
Herrick, has become well known since  
then as a speaker of eloquence and  
force. In 1904 he stumped Illinois in  
the interest of Frank O. Lowden, candi-  
date for Republican nomination for  
governor of Illinois. He was defeated  
in the 79th ballot by a combination of  
the Yates-Deneen forces. Dr. Shep-  
ardson now is booked for speeches in the  
interests of Governor Lowden's candi-  
dacy for nomination for president of  
the United States.

### GRANVILLE BRANCH IS PEACE CHAPTER

On the social page of a Pittsburgh  
paper appears the picture of the new  
state president of the Ohio branch of  
the Service Star Legion, Mrs. W. W.  
Davies of Martins Ferry, and among  
other officers mentioned is the name of  
Mrs. Robert Rogers, organizer of Gran-  
ville. Attention was called two years  
ago to the fact that the National War

### KING'S DAUGHTERS CONDUCT PROGRAM

A meeting of the Community federa-  
tion was held Tuesday afternoon. The  
secretary, Mrs. A. P. Nichol, read the  
minutes of the last meeting. Among  
other matters of business, that of nomi-  
nating candidates for next month's  
election, engaged attention. The meet-  
ing was then turned over to Miss Lillie  
B. Jones, leader of the Granville Circle  
of The King's Daughters, who had  
charge of the program. Miss Jones an-  
nounced that to her great disappoint-  
ment she had received a telegram early  
in the morning apprising her of the ill-  
ness of the state president, Mrs. Sarah  
Gugle, who was to have delivered the  
address before the federation and to  
have conducted the admission service  
for new members of The King's Daugh-  
ters. However, the circle was prepared  
with a substitute program.

"The Bird With a Broken Wing,"  
was sung by Mrs. Theodore Johnson,  
soprano of the Women's Music club,  
accompanied by Mrs. Darrow. Mrs.  
Ernest Shepardson read an interesting  
history of The King's Daughters and  
Sons, compiled in brief form, by Miss  
Jones, and dwelling more at length on  
the growth and development of the  
Granville circle during its 20 years of  
history.

Vision Beautiful" and this was follow-

by Miss Jones, and assisted by the mem-

### CELEBRATE KING'S DAUGHTERS' 20TH ANNIVERSARY SOON

Has From Small Beginning  
Reached 107 Active Mem-  
bers and 32 Contributing  
Members.

Soon to celebrate its twentieth anni-  
versary, the local chapter of The  
King's Daughters deserves more than  
passing mention for the magnificent  
service to humanity it has rendered in  
this community and which it has broad-  
ened by devoted service for 16 years  
under the efficient leadership of its  
president, Miss Lillie Jones. This chap-  
ter was at first a small society of girls  
in the Presbyterian church organized to  
brighten lives in their own town of  
Granville. As friends of the girls in  
other churches desired to join, it was  
decided to make the circle inter-denomi-  
national in its scope. The question of  
a name was settled by the vote of the  
members to become a circle of The  
King's Daughters and on the first Sun-  
day in March, 1900, the Cup of Cold  
Water Circle of The King's Daughters  
was admitted into the order by the  
county president, Miss Vance, of  
Newark, and several other Newark  
women.

At that time the circle numbered  
about 15 active members; now there are  
107 active and 32 contributing mem-  
bers, with three charter members, Miss  
Gertrude Carpenter, Mrs. M. M. Mont-  
gomery and Miss Lillie B. Jones, the  
last mentioned having been a leader for  
16 years. Other leaders have been Mrs.  
Montgomery, Mrs. Cain and Mrs. Part-  
ridge. For the past ten years Miss  
Blanche Horton has served as secre-  
tary.

The first work the circle engaged in,  
was largely sending flowers to the sick  
in the village, and for years garden  
flowers were sent to Columbus by the  
bushel. During all the years the work  
has always been anything that can be  
done in His Name.

The year from March 10, 1913, to  
March 9, 1914, was perhaps, the largest  
year's work in the history of the circle.  
During these months the members en-  
tertained the state convention, sent  
provisions to flood sufferers in Zanes-  
ville, Columbus and Fremont, getting a  
large truck load into Zanesville before  
the trains could get in there, all this in  
addition to a heavy year's work along  
regular lines.

Among its regular activities are the  
supper given every Decoration Day in  
honor of the old soldiers; furnishing  
nurses for the sick. The circle owns  
two wheel chairs and an invalid lifter  
which are in constant use. It helps  
maintain Rock Lodge Inn where indus-  
trial girls can have a pleasant and  
restful vacation, and it now is helping  
to start the new state work in Bucyrus.  
The members, because of their self-  
denying work for the sick and suffering,  
enjoy the confidence and loyal support  
of the community, in larger measure  
perhaps, than do the members of any  
other local organization. They work in  
absolute harmony, not for their own in-  
terest but—in His Name—for those  
least blessed in this and other commu-  
nities. During the twenty years the  
circle has lost 15 members by death.  
The treasurer's report shows that in  
March, 1913, there was on hand  
\$117.72, receipts during the year,  
\$1,527.25, total, \$1,644.97. Disburse-  
ments during year, \$1,377.27, leaving a  
balance of \$268.01 in the treasury.

# "BEST REMEDY I EVER TRIED," SAYS LOCAL WOMAN

Feels Stronger and Better In Every Way After Taking Redex, the New Herbal Remedy.

The strong, healthy man or woman boasts that he or she can eat most anything without any ill effects afterwards; they scarcely realize they had a stomach. They fail to discover this fact until this organ is out of order. Redex, the new Herbal Remedy, has helped to resurrect many of these moribund digestive organs and created "live-wires" where placid nerves refused to perform their proper function. Redex has helped to make the weak strong, the suffering joyous in relief, the despondent exulting in the regained powers of body, mind and intellectual activity. It is generally recognized that between the stomach, liver, bowels, lungs, nerves, muscles, blood circulation, and other functions there exists a partnership based on the principle of "one for all or all for one."

Most of the maladies that flesh is heir to originate through one or the other of these channels, and the stomach is the gateway by which they are released if it does not perform its guardianship duty.

If your stomach is out of order try Redex, the New Herbal Remedy. It has won thousands of friends wherever introduced and seldom or ever disappoints.

Mrs. J. B. Smith, living at No. 11 S. Cedar Street, Newark, is highly enthusiastic over her experience with Redex, now being demonstrated at Erman's Arcade Drug Store, Newark. In a conversation with the Redex expert, she said:

"Redex is a splendid medicine and has helped me wonderfully. I am feeling better now than I have for the past two years, and I have tried about everything that I could think of. I am stronger and better able to do my housework than I have been for years. My chief troubles have been with my stomach and severe rheumatic pains in my arm and shoulder; some times my fingers would become very stiff and sore. Nothing in the way of food tasted good or seemed to agree with me. I have been so weak and draggy that I could hardly stand on my feet, let alone work. Since I started taking Redex several days ago, I feel like a different woman. I did my own washing this week, and my housework has been a pleasure to me. I am stronger, eat well, with no bad after effects, am less nervous, and am better in every way than I have been for a long while back. My rheumatic pains bother me a trifle yet but are far less severe than they were. If Redex will continue to help me as it has done in the past few days, I shall certainly be very grateful."

"I am going to continue taking Redex as thus far it has proven to be the best remedy I have ever tried," she said. "Redex, the new herbal remedy, can be taken to excellent advantage as a tonic during all seasons of the year. It is especially beneficial in cases of stomach, liver and kidney trouble, rheumatism, nervousness, loss of appetite, indigestion, catarrhal and bronchial trouble, faulty circulation, pallid complexion, the after effects of influenza and for persons in a run-down and weakened condition. Redex is now being demonstrated in Newark at Erman's Arcade Drug Store, where the expert will be glad to meet all callers and explain the merits of the New Remedy."

## "MOST DISEASES DUE TO BAD DIGESTION"

Warns Doctor Who Knows From 20 Years' Experience

"Indigestion and Constipation! Just think what it will do for you or what it may cause," says Dr. Geo. S. Parker, of Athens, Ohio. "Stomach, bowels, liver, lungs, kidneys, skin, and impure blood. The food first enters the stomach, then the bowels, then the lungs, then the skin. This brings on a feverish condition of the system, which results in indigestion and constipation. The food is not properly digested and the food portion is absorbed and goes directly into the blood. Is it any wonder that indigestion and constipation cause more diseases than all other causes put together?"

"The way to head off disease is to keep your digestive organs in a healthy condition. Thousands are doing this with my especially prepared treatment. People are rapidly finding out what a vast difference there is between a remedy especially prepared for indigestion and constipation, and one prepared to cure all diseases."

"Try my treatment and be convinced." At your druggist's for \$1.25 the box. Guaranteed, or your money refunded.

## Big Value in Tires for Small Cars

Back of the manufacture of Goodyear Tires for small cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3, 30x3 1/2, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

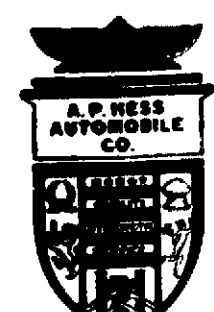

It is also noted in the fact that, if you own a Ford, Chevrolet, Dort, Maxwell or other car requiring the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread... \$20.00

30x3 1/2 Goodyear Single-Cure Fabric, All-Weather Tread... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water--\$39.00

## TOBACCO HARDENS THE ARTERIES, OVERTAXES THE HEART AND SHORTENS LIFE

Says Dr. Connor, Who Suggests a Simple Test To Find If It Is Hurting You? Can You Stand It?

New York.—Dr. Connor, formerly of Johns Hopkins hospital, says: Hundreds of thousands of men who smoke and chew, and who believe themselves healthy are suffering from progressive organic ailments. They would never have been afflicted had it not been for the use of tobacco and most of them would soon get well if they would only stop the use of tobacco.

The best known habit forming principal of tobacco is nicotine, but the most deadly and demoralizing is fufural. Both are deadly poisons, which, when absorbed by the system slowly, but surely, affect the nerves, membranes, tissues, vital organs and vitality of the body.

fore taking your usual smoke, walk up three flights of stairs at a regular pace, then stop. If you find that you are out of breath, if your heart beat is forced, trembling or irregular, you may be the victim of a functional or organic heart trouble. If you feel that you must smoke or chew to quiet your nerves, you are a slave to the tobacco habit and are slowly poisoning yourself with the insidious deadly drugs, nicotine and fufural. In either case, you have just two alternatives—keep on with your self-poisoning process regardless of the dangers, and suffer the consequences, or rid yourself of the habit and escape the dangers.

## AFTER TEN YEARS DISCOVERED JUST THE RIGHT THING

Ohio Citizen, 70 Years Old, At Last Overcomes Backache, Nervousness, Lazy Liver, Coated Tongue and Unsound Sleep.

## FULL OF ENERGY.

Declares New Herb Juice Remedy, Drego, Does Him Worlds Good.

"For the past ten years I've searched for a remedy to clear the coating from my tongue, rouse my liver, and give me some energy and strength," says Mrs. Lewis Gosnell, of 318 Second Street, Columbus, O., formerly of Newark, O. "When I was a boy (I'm 70 now), my mother depended on roots and herbs for her medicine, so when I saw Drego advertised as an herbal medicine, I bought a bottle, and I'm completely relieved from that drowsy, sluggish feeling, and am full of energy. I now sleep all night long, whereas before I was nervous and restless; never able to get to sleep before the early hours of the morning. My bowels were badly constipated, but now the action is free and easy. This is the first time in ten years that my tongue has been clear of that fuzzy coating, and my breath is pure and sweet. My liver acts fine, and my stomach feels perfectly easy now, with no puffed up sensation. I am able to once more feel perfectly healthy and it's all due to the splendid action of Drego."

The old-fashioned remedies, made from roots and herbs, are the best for any one to take. Drego is made from twelve different roots and herbs, barks and berries. These act on the stomach, bowels and kidneys and purify the blood. Drego knocks rheumatism out shortly; relieves catarrh of the head and stomach, makes you sleep soundly and creates a good appetite. As a blood purifier nothing can equal Drego. It puts a stop to boils, eczema and other blood affections.

All good druggists now sell Drego and it is highly recommended in Newark by Evans' Cut Rate Drug Store.

Ropp, R. R. 2, Littleton, Ind. Mrs. Ropp got this increase of 7 dozen eggs a day in the middle of winter. At 60 cents a dozen, 20 days a month, this makes \$105 extra income a month.
